**CAL FIRE**  
**California Joint Incident Briefing**  
**11/26/2011 1000 hours**

**Weather Report -Northern Region**

Warmer and drier weather is expected through this weekend as high pressure builds over the region.

**Weather Report - Southern Region**

Gusty offshore winds and dry conditions will develop this morning and continue through early next week. Areas of moderate and locally strong northeast to east winds are expected through and below favored passes and canyons today and Sunday strongest in the early morning through early afternoon. Wind gusts Saturday and Sunday mornings will be in the 30 to 40 mph range with isolated gusts to 50 mph in the windiest locations. Daytime humidity will be in the teen's inland Saturday through Tuesday. Humidity recovery will be moderate to poor in the wind prone areas.
