

# Avila Beach Downtown

At the lowest elevations, the downtown area of Avila Beach is primarily commercial development, with a combination of restaurants, shops and lodging. There is a large tourist population, which may require extra support when evacuating. There is only one egress path from downtown Avila Beach, Avila Beach Dr. This road follows a creek, and as a result is likely to be flooded and/or damaged as a result of a tsunami.

- Inundation Area
- SLO County Tsunami Plan Evacuation Area
- Likely Evacuation Routes
- Single Address
- Address within the inundation zone
- Traffic Control Points
- Tsunami Safe Point
- General Point of Interest
- Travel Lodging (Motel, Inn, Resort, etc.)
